

Growing
health
with love 

At Athos, we do more than just cultivate the land; we care for every step of our products' journey. We are a team of passionate farmers who, with dedication and commitment, manage the entire value chain. From growing and harvesting, through packing and exporting, to importing and final distribution, we ensure our products arrive fresh and of the highest quality to every corner of the world. Our expertise and professionalism enable us to offer a comprehensive and trustworthy service, from our hands to your table.

Growing
health
with love

Constancy
and consistency

52 weeks of the year

At Athos, our dedication knows no breaks. We are committed to delivering the highest quality products all year round, without exception. Thanks to our advanced infrastructure and the expertise of our team, we can ensure a continuous and consistent supply, week after week. Whether during the most favorable growing seasons or the toughest climatic challenges, our reliability remains steadfast. This unwavering commitment allows us to meet the expectations of our customers and business partners, ensuring they always receive fresh and nutritious products, no matter the time of year.
